

The Retirement Outlook

UK 2014

53%

Just over half of the population are saving adequately towards their retirement.

65%

There has been a worrying drop in the number of us that believe individuals will need to take greater financial responsibility for their retirement planning.

**1 in 3
OF US...**

Still don't know if our savings will meet our retirement needs or not.

“A significant group of people are still doing nothing to prepare financially for retirement”
